Open Data Portal Content

The content (e.g. datasets, maps, charts, etc.) provide the resources users are looking for when they visit the site. The greater quantity and wider variety content we publish on the site, the greater the site's usefulness becomes.

Content Type	9/30/2016	12/31/2016	% Change	Definition
Datasets	132	154	16.67%	Datasets are collections of related data presented in tabular format.
Geospatial Datasets	235	315	34.04%	Geospatial datasets are connections to GIS web service endpoints, or shapefiles that have been imported. Geospatial datasets are often presented as maps.
External References	99	110	11.11%	External references are links to public databases or applications offering citizens a way to explore and understand information.
Data Lens Pages	40	47	17.50%	Data Lens Pages are pages derived from an underlying dataset. The pages contain multiple chart/map cards that are cross-filtered – providing citizens an easy way to explore data.
Charts	177	185	4.52%	Charts are derived views based on an underlying dataset. Chart types include: bar charts, column charts, pie charts, line charts, area charts, donut charts, tree maps, bubble charts and timelines.
Maps	46	46	0.00%	Maps are derived views based on an underlying dataset that has a geospatial attribute such as an address or latitude/longitude.
Filtered Views	55	85	54.55%	Filtered views are subsets of data or aggregations derived from an underlying dataset presented in tabular form.
